

**3)Write a python program to display prime number series up to given numbers:**

```
min = int(input("Enter the min : "))
```

```
max = int(input("Enter the max : "))
```

```
for n in range(min,max + 1):
```

```
    if n > 1:
```

```
        for i in range(2,n):
```

```
            if (n % i) == 0:
```

```
                break
```

```
        else:
```

```
            print(n)
```
